THE MOST VERSATILE DC PUMP AVAILABLE

The RD Series Portable Fuel Transfer Pumps are reinventing the way people fuel their vehicles and machinery. With the RD12 you get a flow rate of up to 45 liters per minute, the flexibility of mounting it or holding it by hand, and quick connect DC power, giving you the ability to fuel just about anything, anytime, anywhere.

It's the perfect pump to carry in your vehicle. Be ready at a moment's notice to fuel your

tractor, backhoe, boat, generator, or virtually any other vehicle or equipment. The RD12 is also ideal for bunded tank applications, where it can be foot or bung mounted. Drain or fill fuel tanks anywhere with no spills, and no worries.

The RD series are the only portable fuel transfer pumps that carry CE, IECEx, and ATEX certifications for use with petrol, benzene, diesel, biodiesel (to B20), kerosene, and other fuels

The RD12 – Fuel transfer when you need it, where you need it.

PORTABLE **RD12** GPM

THE MOST VERSATILE

DC PUMP AVAILABLE
