

## HAND PUMPS - MINI JOLLY

Small-format hand pump, in stainless steel throughout, for fixed installation.

- Capacity: 30/40 litres/min
- Hose fitting: Ø 30 mm

Technical specifications and efficiency:

- Lightweight (less than 1.5 kg.)
- Casing in pressed stainless steel (AISI 304)
- Self-priming
- Capacity 30 l/min
  - Dry suction up to 4 metres
  - Delivery up to 4 metres

Operating features:

The stainless steel pump casing and hose fittings, together with our neoprene or special, fuel-resistant elastomer diaphragm and valves, ensure that the liquid being pumped will not be contaminated or damage the pump.

## HAND PUMPS - JOLLY JUNIOR

Medium capacity hand pump, in stainless steel throughout, with large-format valves.

- Capacity: 50/60 litres/min
- Hose fitting: Ø 30/40 mm

Technical specifications and efficiency:

- Lightweight (less than 4 kg.)
- Casing in pressed stainless steel
  - Self-priming
- Empties 200-l drum in 2 minutes
- Dry suction up to 4 metres
  - Delivery up to 4 metres

Operating features:

The stainless steel pump casing and hose fittings, together with our neoprene or special, fuel-resistant elastomer diaphragm and valves, ensure that the liquid being pumped will not be contaminated or damage the pump.

## HAND PUMPS - JOLLY 300

High capacity hand pump, in stainless steel throughout, for liquids containing large solid bodies in suspension.

- Capacity: 100/120 litres/min
- Hose fitting: Ø 40/50 mm

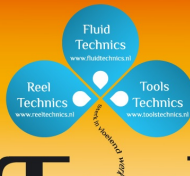

Technical specifications and efficiency:

- Lightweight (less than 7 kg.)
- With trolley 10 kg.
- Casing in pressed stainless steel
- Self-priming
- Empties 200-l drum in 2 minutes
- Pumps 4 litres with each action
- Dry suction up to 4 metres
- Delivery up to 4 metres

Operating features:

The stainless steel pump casing and hose fittings, together with our neoprene or special, fuel-resistant elastomer diaphragm and valves, ensure that the liquid being pumped will not be contaminated or damage the pump.
